1 x New 1,500 L insulated vertical stainless steel mixing tank in AISI 316L

This standard tank from our stock was equipped in our workshop according to customer specifications with the following:

- Custom-built agitator.
- 3 baffles.
- Rockwool insulation with fully welded stainless steel outer cladding.
- Lockable DN500 manhole with EPDM-FDA gasket.
- Static spray ball.
- Various DIN11851 connections.
- Total outlet DN80 DIN11851.
- Internal finish 2B, product-contact welds ground to Ra 0.8 µm.
- 3 adjustable legs.

The tank is suitable for various applications in the food industry.
